ADVISORY

Ammonium Nitrate and Urea Based Fertilizers

DID YOU KNOW?

Residential and agricultural grade fertilizer can be used to manufacture **HOMEMADE EXPLOSIVES**. The U.S. Department of Homeland Security is asking the fertilizer industry, including owners, operators and end-users to safeguard their products and to report **SUSPICIOUS ACTIVITY** in a timely manner.

Security Best Practices

- ☑ **Keep Fertilizer secured under lock and key.**
- ☑ **Limit access to storage locations.**
- ☑ **Keep records of purchases.**
- ☑ **Develop, maintain, regularly check, and update an inventory of fertilizer on-hand.**
- ☑ **Limit quantities on-hand to a minimum.**
- ☑ **Train employees to recognize signs of tampering and other suspicious activity.**
- ☑ **Report to management and local law enforement:**
  - Evidence of tampering
  - Theft or unexplained loss
  - Other suspicious activity

Incident Statistics

The bomb used in the Oklahoma City terrorist attack in 1995 was made with AN-based Fertilizer.

The first attack on the World Trade Center in 1993 was made of Urea Nitrate where 6 people where killed and over 1000+ injured.

Law Enforcement POC : _____

If you **see** something, **say** something®

REPORT SUSPICIOUS ACTIVITY. Call 855-TELL-FBI (855-835-5324) or call local law enforcement.
